Team ID	To Be Assigned
Project Name	Credit Card Approval Prediction
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand credit card applicants from four perspectives - what they Say, Think, Do and Feel - regarding the credit card approval process.

SAYS • Will my credit card application be approved? • How long will the approval process take? • What factors affect my eligibility?	THINKS • My income and credit history should help me. • The process should be transparent and fair. • I hope there are no hidden rejection reasons.
DOES • Submits financial and personal details. • Uploads required documents. • Tracks application status regularly.	FEELS • Anxious about approval chances. • Excited to receive the card. • Frustrated by delays or unclear decisions.

Persona: PERSONA NAME

Credit Card Applicant
(Customer / User Type)
