

Date	01 July 2026
Team ID	To Be Assigned
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain challenges in manual credit card approval and project objectives.	2	Om Pranith Sai Voleti
2	Solution Overview	Present architecture, workflow, dataset and preprocessing pipeline.	3	Harshith Raj
3	Dataset and Model Explanation	Explain synthetic dataset features and ML algorithms used.	3	Borra Uma Maheswari
4	Live Prediction Demonstration	Enter applicant details and demonstrate approval or rejection prediction.	5	Tulluri Hanupriya
5	Results and Performance	Present accuracy, confusion matrix and testing results.	2	Naga Kishore
6	Q&A; and Future Scope	Discuss improvements and answer evaluator questions.	3	Entire Team

Step	Activity	Notes
1	Introduction & Problem Statement	Explain motivation and business problem.
2	Solution Overview	Describe architecture and technology stack.
3	Live Feature Demonstration	Show web form and prediction output.
4	Q&A; Session	Discuss limitations and future enhancements.
